		ᑭ	&i	ᑭ	&u	ᑭ	&a	ᑭ	&
ᑭ	hai*	ᑭ	hi*	ᑭ	hu*	ᑭ	ha*	ᑭ	h*
								H	h†

Notes

1. A long vowel is represented in syllabics by a superscript dot, in romanization by doubling the letter (for example, ᑭᑭᑭᑭ *naaniit*, ᑭᑭᑭᑭᑭᑭ *Kuujjuaq*).
2. A circle over a character in the second column converts the vowel from *i* to *aai* (for example, ᑭᑭᑭᑭ *Aaisaak*).

*Character used in the Nunavik region of Québec.

†Character used in the territory of Nunavut.
