AVP (WeAreAVP.com) provides consulting services and software development to help organizations overcome their toughest preservation challenges and maximize the usability of their data. Over the past decade, AVP has performed over 50 consulting and software development contracts in support of 13 Federal Agencies. We are known for our deep expertise, highly collaborative approach, and our track record of successful outcomes.

AVP offers consultation and training on preservation-related topics, including but not limited to: General preservation planning; Digital conversion planning and implementation; Software development of tools for digital collections; Preservation needs assessment surveys, facilities assessments, collection surveys, and item-by-item surveys.
