FEDLINK Explores Library Support Services Contracts

Responding to requests to offer Library Support Services to our product and services categories, FEDLINK will be pursuing multiple Indefinite Delivery/ Indefinite Quantity (IDIQ) contracts with staffing agencies, information management companies, contract cataloging services, and other organizations to help federal libraries and their agencies find the support their library needs, regardless of the task. Please let us know which services your organization would like to see offered through FEDLINK.

FEDLINK has launched a poll to collect input from member libraries and their agencies to identify which services are in the highest demand. To vote for the services your library requires, point your browser to <https://www.surveymonkey.com/r/FEDLINKLibrarySupportServices>.

Vendor Demonstrations Offer Options and Tools

The FEDLINK Marketplace, a virtual meeting, demonstration, and video destination for members and vendors, launched its inaugural session in February and featured sessions from Counting Opinions, Leadership Connect, SAE International, Copyright Clearance Center, Peterson's Test Prep, Rittenhouse Book Distributors, and Digital Bedrock.

Through the virtual venue, FEDLINK offers free webcast product demonstrations from its vendors. More sessions are in the works to share the latest, hear from the experts, and explore the options available from FEDLINK vendors.

Upcoming sessions will feature O'Reilly, Infogroup, Bloomberg, and AVP. Watch your email for information on viewing past sessions and for future events.

Request Direct Express Contract Information

Direct Express customers may request contract information for electronic resource, bibliographic utility, or foreign language course ware vendors. By citing the FEDLINK contract number on a purchase order, members can send orders directly to the vendor. When citing FEDLINK procurement vehicles, customers must execute all contract actions in accordance with the FAR or other applicable regulations and send FEDLINK a copy of any executed orders. To request contract information, point your browser to <https://www.surveymonkey.com/r/FEDLINKdirect>.
